Notes to the Condensed Consolidated Interim Financial Statements

Six Months Ended June 30, 2024 and 2023

(Expressed in Canadian dollars)

1. Nature of Business and Continuing Operations

Stallion Uranium Corp. (formerly Stallion Discoveries Corp., Stallion Gold Corp., Hybrid Minerals Inc., and Savoy Ventures Inc.) (the “Company”) was incorporated on November 7, 2011 under the Business Corporations Act (British Columbia). The head office of the Company is located at Suite 700, 838 West Hastings Street, Vancouver, British Columbia, V6C 0A6.

The Company’s principal business activities include the acquisition and exploration of mineral property assets. These consolidated financial statements have been prepared on the going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. For the six months ended June 30, 2024, the Company has not generated any revenues and incurred negative cash flow from operating activities. As at June 30, 2024, the Company has an accumulated deficit of \$14,270,787. The Company’s ability to continue as a going concern is dependent upon its ability to generate and maintain future profitable operations and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management is of the opinion that sufficient working capital will be obtained from external financing to meet the Company’s liabilities and commitments as they become due, although there is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company. These factors indicate the existence of a material uncertainty that may cast doubt on the ability of the Company to continue as a going concern. These consolidated financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern. Such adjustments could be material.

2. Material Accounting Policies

(a) Statement of compliance and basis of presentation

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board.

These consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, Stallion Gold Idaho Corp. (“Stallion Idaho”), U92 Exploration Limited (“U92”), effective on January 5, 2023, Hathor Exploration Ltd. (“Hathor”), effective on January 11, 2023, and 1262446 B.C. Ltd, effective on May 26, 2023. All significant inter-company balances and transactions have been eliminated on consolidation. Where control of an entity is obtained during a financial year, its results are included in the consolidated statements of operations from the date on which control commences. Where control of an entity ceases during a financial year, its results are included for the part of the year during which control exists.

These consolidated financial statements have been prepared on a historical cost basis and are presented in Canadian dollars.

(b) Use of estimates and judgments

The preparation of these consolidated financial statements in conformity with IFRS requires the Company’s management to make judgements, estimates, and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, revenues, and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

Significant areas requiring the use of estimates include the recoverability of exploration and evaluation assets, flow-through share premium, fair value of share-based compensation, and unrecognized deferred income tax assets. Actual results could differ from those estimates.

(formerly Stallion Discoveries Corp.)

Notes to the Condensed Consolidated Interim Financial Statements

Six Months Ended June 30, 2024 and 2023

(Expressed in Canadian dollars)

2. Material Accounting Policies (continued)

(b) Use of estimates and judgments (continued)

The application of the Company's accounting policy for exploration and evaluation expenditures requires judgment in determining whether it is likely that future economic benefits are likely either from future exploitation or sale or where activities have not reached a stage which permits a reasonable assessment of the existence of reserves. The deferral policy requires management to make certain estimates and assumptions about future events or circumstances, in particular whether an economically viable extraction operation can be established. Estimates and assumptions made may change if new information becomes available. If, after expenditure is capitalized, information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalized is written off in the consolidated statement of operations in the period when the new information becomes available.

The assessment of whether the going concern assumption is appropriate requires management to take into account all available information about the future, which is at least, but is not limited to, 12 months from the end of the reporting period. The Company is aware that material uncertainties related to events or conditions may cast significant doubt upon the Company's ability to continue as a going concern.

(c) Accounting standards issued but not yet effective

A number of new standards, and amendments to standards and interpretations, are not yet effective for the six months ended June 30, 2024, and have not been early adopted in preparing these consolidated financial statements. These new standards, and amendments to standards and interpretations are either not applicable or are not expected to have a significant impact on the Company's consolidated financial statements.

(d) Comparative figures

Certain comparative figures have been reclassified in accordance with the current period's presentation.

3. Acquisitions

U92 Exploration Limited

On January 5, 2023, the Company acquired U92 Exploration Limited ("U92") pursuant to a share purchase agreement. U92 is a corporation existing under the laws of the province of British Columbia with strategic claims in the Western Athabasca Basin.

The Company acquired all of the issued and outstanding common shares of U92, for consideration of: (i) issuing 3,000,000 common shares of the Company and (ii) \$300,000.

This acquisition has been accounted for as an acquisition of assets as U92 did not meet the definition of a business under IFRS 3, Business Combinations.

Horse Heaven Property

On March 1, 2021, the Company entered into a Share Option Agreement (“Agreement”) pursuant to which the Company has been granted the option to acquire all the shares outstanding in 1262446 B.C. Ltd. (“Horse Heaven Parent”), a private mineral exploration company. Horse Heaven Parent is the sole owner of Horse Heaven Holdings Inc. which holds a 100% interest in the Horse Heaven mineral property located in Idaho, USA. As consideration, the Company has agreed to pay \$1,200,000 and issue 36,000,000 common shares as follows:

- \$200,000 as a non-refundable deposit on the letter of intent and execution and delivery of the agreement (paid);
- \$200,000 and 12,000,000 common shares following the satisfaction or waiver of all of the conditions precedent in the Agreement (the “Effective Date”) (paid and issued);
- \$400,000 and 12,000,000 common shares on the first anniversary of the Effective Date (paid and issued); and
- \$400,000 and 12,000,000 common shares on the second anniversary of the Effective Date (paid and issued) (Note 6).

4. Exploration and Evaluation Assets (continued)

In May 2023, the Company completed the payments and exercised its option to acquire a 100% interest in Horse Heaven Parent.

Richmond Mountain Property

On May 20, 2022, the Company entered into an earn-in option agreement to acquire 100% of the membership interest in Richmond Mountain LLC ("Richmond"). Richmond is the sole owner of the Richmond Mountain gold project (the "Project") from Bronco Creek Exploration Inc., a wholly-owned subsidiary of EMX Royalty Corporation ("EMX"). As consideration, the Company has agreed to pay US\$500,000 and incur US\$1,500,000 in exploration expenditures as follows:

- Cash payments to be made:
 - US\$25,000 upon execution and delivery of the agreement (paid).
 - US\$25,000 on or before the first anniversary of the Effective Date (paid);
 - US\$50,000 on or before the second anniversary of the Effective Date;
 - US\$50,000 on or before the third anniversary of the Effective Date;
 - US\$100,000 on or before the fourth anniversary of the Effective Date; and
 - US\$250,000 on or before the fifth anniversary of the Effective Date.
- Exploration expenditures to be incurred:
 - US\$200,000 on or before the first anniversary of the Effective Date;
 - US\$200,000 on or before the second anniversary of the Effective Date;
 - US\$300,000 on or before the third anniversary of the Effective Date;
 - US\$350,000 on or before the fourth anniversary of the Effective Date; and
 - US\$450,000 on or before the fifth anniversary of the Effective Date.

Upon completing the option earn-in, EMX will retain a 4% NSR royalty interest on the Project. The Company has the ability to buy down the NSR to 2.5% by:

- Completing an initial half-percent (0.5%) royalty buyback for a payment of US\$750,000 prior to the third anniversary of the option exercise.
- If the first buyback is completed, an additional half percent (0.5%) can be bought back for US\$1,000,000, and a third half percent (0.5%) increment for US\$1,200,000 at any time prior to Commercial Production.

Beginning on the first anniversary of the option exercise, the Company will also make annual advance royalty ("AAR") payments of US\$100,000. Additionally, after the option has been exercised, the Company will make payments in gold ounces (or the USD equivalent) at the following Project milestones:

- 200 ounces of gold upon completion of a preliminary economic assessment;
- 400 ounces of gold upon completion of a prefeasibility study; and
- 650 ounces of gold upon completion of a feasibility study.

During the six months ended June 30, 2024, the Company terminated the option agreement, resulting in the Company recognizing a write-off of exploration and evaluation assets of \$584,682.

4. Exploration and Evaluation Assets (continued)

Athabasca Basin Property

On January 5, 2023 and January 11, 2023, the Company entered into share purchase agreements to acquire 100% interest in U92 and Hathor, which own certain mineral claims in the Athabasca Basin (Note 3).

On July 18, 2023, the Company entered into an option agreement with Atha Energy Corp. ("Atha") which give the Company an option to acquire a 70% interest (the "Option") in 47 mineral claims located in the Western Athabasca Basin, Saskatchewan (the "Project"). The Option will become exercisable upon completion of the following milestones and will remain exercisable for one year thereafter:

- Issuance of 3,333,333 common shares of the Company within two business days following the satisfaction of customary conditions precedent (issued) (Note 7);
- Accumulation of \$3,311,770 Saskatchewan Exploration Expenditure Credits on the Project within 12 months the "Early Expenditures" and;
- Accumulation of an additional \$8,688,230 Saskatchewan Exploration Expenditure Credits (for an aggregate of \$12,000,000) on the Project within 60 months.

During the term of the Option, the Company will be the sole operator of all exploration programs on the Project.

If the Company fails to incur enough exploration expenditures to cover the "Early Expenditures", including a deficiency deposit of \$1,761,911 paid by Atha Energy, it may satisfy the obligation by paying cash to Atha or by issuing Atha additional shares in accordance with the terms of the agreement. Any additional shares issued to Atha for potential missed milestones will be subject to prior approval of the TSX Venture Exchange.

Following the exercise of the Option, the Company and Atha will commence a joint venture on the Project with the Company and Atha holding a 70% and 30% interest, respectively.

On February 12, 2024, the Company entered into a purchase and sale agreement with Glorious Creation Limited ("Glorious"), under which the Company granted Glorious the right to acquire a 100% interest in 7 mineral claims within the Athabasca Basin Property located in the province of Saskatchewan. Pursuant to the agreement, the consideration paid by Glorious is as follows:

Cash payments to be made by Glorious:

- \$100,000 upon signing the agreement (received); and
- \$300,000 on the closing date (received).

Common shares issued by Glorious:

- 500,000 common shares six months following the closing date;
- 500,000 common shares twelve months following the closing date;
- 500,000 common shares eighteen months following the closing date; and
- 1,000,000 common shares twenty-four months following the closing date.

The Company shall retain a 3% NSR from minerals mined and removed from the property, of which Glorious may purchase up to one-half of the NSR at any time prior to commercial production on the property as follows: \$500,000 for 0.5%; \$750,000 for an additional 0.5%; and \$1,000,000 for an additional 0.5%.

As at June 30, 2024, the Company had a deposit of \$502,351 (December 31, 2023 - \$562,841) related to the time extension rules in accordance with Mineral Tenure Registry Regulation.

10. Financial Instruments and Risk Management

(a) Fair Values

Fair value measurements are classified using a fair value hierarchy that reflects the significance of inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1 - valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 - valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 - valuation techniques using inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The fair values of financial instruments, which include cash and cash equivalents, and accounts payable and accrued liabilities, approximate their carrying values due to the relatively short-term maturity of these instruments.

(b) Credit Risk

Credit risk is the risk of potential loss to the Company if a counter party to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to its liquid financial assets including cash and cash equivalents. The Company limits the exposure to credit risk by only investing its cash and cash equivalents with high-credit quality financial institutions. The carrying amount of these financial assets represents the maximum credit exposure.

(c) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company currently settles its financial obligations out of cash. The ability to do this relies on the Company raising debt or equity financing in a timely manner and by maintaining sufficient cash in excess of anticipated needs. The Company is currently not exposed to any significant liquidity risk.

(d) Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to significant interest rate risk as it does not have any liabilities with variable rates.

(e) Foreign Exchange Rate Risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company operates in Canada and United States, but has the majority of its cash held in Canada in Canadian dollars. Current exploration programs and option payments are denominated in US dollars. Foreign exchange risk arises from purchase transactions as well as financial assets and liabilities denominated in these foreign currencies.

The Company does not use derivative instruments to hedge exposure to foreign exchange rate risk. However, management of the Company believes there is no significant exposure to foreign currency fluctuations.

(f) Price Risk

The Company's ability to raise capital to fund exploration activities is subject to risks associated with fluctuations in the market price of mineral resources. The Company closely monitors commodity prices to determine the appropriate course of action to be taken.
